Parent Responsibility

The staff takes their responsibility very seriously for the education of your children, both spiritually and cognitively. But since we only meet once a month, your child's success in the program depends primarily on your dedication to the program. Please be considerate of your child's teachers time, by doing your part to prepare your child prior to each meeting, and not missing meetings. Remember we are all volunteers.

To a very great extent the mother holds in her own hands the destiny of her children. She is dealing with developing minds and characters, working not alone for time, but for eternity. She is sowing seed that will spring up and bear fruit, either for good or for evil. She has not to paint a form of beauty upon canvas or to chisel it from marble, but to impress upon a human soul the image of the divine. Especially during their early years the responsibility rests upon her of forming the Character of her children. The impressions now made upon their developing minds will remain with them all through life. Parents should direct the instruction and training of their children while very young, to the end that they may be Christians. They are placed in our care to be trained, not as heirs to the throne of an earthly empire, but as kings unto God, to reign through unending ages.
